PROFESSIONAL SUMMARY

Computer Game Design graduate from Dakota State University with an emphasis in software development and a strong foundation in computer science principles. Experienced in C and its variants, Unity, and systems programming, with a focus on game development and UI systems. I've proven leadership through team-based projects and management roles, with the ability to balance technical development and team coordination.

EDUCATION

Dakota State University — Madison, SD

Bachelor of Science in Computer Game Design (Software Development Emphasis)

2020 – 2026

Relevant Coursework:

Data Structures • Software Security • Object-Oriented Programming • Web-Application Programming • Artificial Intelligence • Database Management • Algorithms and Optimization • Computer Science I & II

TECHNICAL SKILLS

Languages: C#, C++, C

Game Development: Unity

Tools & Platforms: Git / GitHub, Visual Studio

Design & Art Tools: Adobe Photoshop, Adobe Illustrator, Autodesk Maya

PROJECTS

Idle Beeing — Lead Programmer

- Lead development of an idle-style game using Unity and C#
- Designed and implemented core gameplay systems and progression mechanics

- Managed and coordinated a small development team
- Developed scalable code architecture to support long-term feature expansion

Game Development Projects (UI Focus)

- Designed and implemented user interface systems in Unity for multiple projects
 - Focused on usability, responsiveness, and player experience
 - Collaborated with team members to integrate UI with gameplay systems
-

PROFESSIONAL EXPERIENCE

Shift Manager

Sunshine Foods | 2023 – 2026

- Supervise and coordinate a team to complete nightly operations efficiently
- Handle cash transactions and ensure accuracy in financial processes
- Train new employees and provide ongoing support to team members
- Resolve customer issues and maintain a high standard of service

Deli Associate

Sunshine Foods | 2024-2026

- Maintained strict food safety and sanitation standards
- Managed food preparation and ensured a clean, organized workspace
- Demonstrated flexibility by supporting multiple departments as needed

Software Development Intern (Remote)

MumoSystems | 2022 – 2023

- Contributed to software development tasks in a remote team environment
- Collaborated with developers using version control tools (Git/GitHub)
- Gained experience working with real-world development workflows and codebases
- Became acquainted with sprint planning practices

Floor/Sales Associate

Dollar General | 2021 – 2022

- Provided customer service and assisted with daily retail operations
- Managed transactions, stocking, and store organization

Apiarist

Hogan Honey Farms, LLC | 2020 – 2021

Greger Bee Farms, Inc. | 2016 – 2019

- Maintained bee colonies and supported honey production processes
- Operated equipment and handled physically demanding tasks
- Ensured cleanliness and efficiency in production environments

CORE STRENGTHS

Leadership • Problem Solving • Team Collaboration • Organization • Adaptability •
Multitasking
